Subject: Urgent Mapping of Functional Laboratory Equipment as per HEC ORICs 2021 Policy for Research, Innovation and Commercialization Benchmarks

In line with the University strategic objective to enhance research quality, international visibility, and compliance with HEC ORICs 2021 policy research, innovation and commercialization benchmarks, the Office of Research, Innovation & Commercialization (ORIC) is initiating by the orders of Pro Vice Chancellor Dr. Jahanzaib Islam, a structured exercise to map a comprehensive, faculty-wise inventory of currently functional laboratory equipment that can be immediately or near-term deployed for the following activities:

- Industrial testing and certification support
- Contract research and analytical services
- Validation, compliance, and export-quality assurance
- Industry-driven student training and applied research

You are therefore kindly requested to share, on a priority basis, the following information from your respective faculties and departments:

1. List of functional laboratory equipment (operational status confirmed)
2. Equipment specifications and testing/measurement capabilities
3. Relevant standards supported (ASTM, ISO, IEC, DIN, etc.)
4. Departmental focal person for industry-linked lab services
5. Any existing industry usage, consultancy, or testing experience

Your timely cooperation will directly contribute to positioning our University as a regional hub for industry-aligned testing, validation, and innovation, in line with national priorities and export-driven economic growth. Kindly share the requested information with the Office of Research, Innovation & Commercialisation (ORIC) within the stipulated timeframe to facilitate consolidation and onward engagement with our external partners positively by 27th Feb 2026. Your cooperation in strengthening GAUS for further processing and consolidation at the University level. Your cooperation in strengthening GAUS research ecosystem and advancing our collective academic standing is highly appreciated.
